Hi Dennis,

The compliance tracking staff is still working on adding all of the Small WWTF GP facilities to NetDMR. They should all be up by April, 1 but, hopefully most of them will be available before that date. If you try again in a few weeks and it is still not there, please let me know.

Thanks,
Michele

Subject: NetDMR access question

Hi Michele,

I'm trying to request access to our new permit and it's not coming up. Do I have to wait until April 1 to do this?
